ASDV Shareholder Committee x 2 posts

Modern, fast-paced delivery never looked so good as it does right now at Cheshire East Council. The council is an aspiring, high performing organisation, with an ambitious corporate plan. As part of its strategy to seek better value for money the council has companies to deliver services. In addition it has established a shareholder committee to provide advice and guidance to the council in its oversight of the companies.

The Shareholder Committee is seeking to appoint two co-opted members to supplement the commercial expertise of the committee, which comprises five elected members of the council who were appointed in line with the rules of the council's constitution. By committing to circa six x 3 hr meetings a year, you could make a far reaching impact across services in community and public transport, waste and the environment, and bereavement. Candidates interested in joining the committee must be residents of Cheshire East, should not be politically active, and must be completely independent of any relationship with a councillor or a member of the three companies' staff.

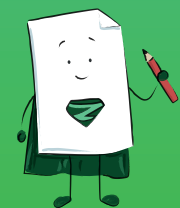

The post is unpaid but very rewarding, and appropriate expenses will be reimbursed.

Please visit www.cheshireeast.gov.uk/ShareholderCommittee to apply or obtain further information about the committee. The closing date for applications is 5pm Friday 13 March 2020.

PennWhite is a leading manufacturer of foam control agents and Chemical specialities. To continue the success and expansion of this established business, a vacancy has arisen for a Laboratory Technician. Based at our Middlewich site, the main duties of this role will include quality control of production samples, organisation of customer sample requests and laboratory administration. There will be further opportunities to aid the development of new product formulations.

The responsibilities include:

- Quality control of production samples
- Organising customer sample requests
- Completing administration tasks where necessary
- Preparation of lab-scale product samples
- Following safe working practises within the lab
- Keeping a tidy workspace

Reporting to PennWhite's Laboratory Manager and working closely with the Development Chemist & Technical Director, the successful candidate will be educated to a minimum of GCSE level in Mathematics, English & a Science and will have experience in a similar role. Competency using basic laboratory equipment and a working knowledge Microsoft Office is essential. Salary circa £22Kpa & benefits including an attractive pension scheme will be outlined at interview.

If interested please email mark@pennwhite.co.uk or apply to: Penn White Ltd, Aston Way, Middlewich, Cheshire, CW10 0HS
