Notes for Guidance

This application cannot be used to vary the licence so as to extend the period for which the licence has effect or to vary substantially the premises to which it relates. If you wish to make that type of change to the premises licence, you should make a new premises licence application under section 17 of the Licensing Act 2003.

1. Describe the premises. For example the type of premises, its general situation and layout and any other information which could be relevant to the licensing objectives. Where your application includes off-supplies of alcohol and you intend to provide a place for consumption of these off-supplies, you must include a description of where the place will be and its proximity to the premises.
2. Where taking place in a building or other structure please tick as appropriate (indoors may include a tent).
3. For example state type of activity to be authorised, if not already stated, and give relevant further details, for example (but not exclusively) whether or not music will be amplified or unamplified.
4. For example (but not exclusively), where the activity will occur on additional days during the summer months.
5. For example (but not exclusively), where you wish the activity to go on longer on a particular day e.g. Christmas Eve.
6. Please give timings in 24 hour clock (e.g. 16:00) and only give details for the days of the week when you intend the premises to be used for the activity.
7. If you wish people to be able to consume alcohol on the premises, please tick 'on the premises'. If you wish people to be able to purchase alcohol to consume away from the premises, please tick 'off the premises'. If you wish people to be able to do both, please tick 'both'.
8. Please give information about anything intended to occur at the premises or ancillary to the use of the premises which may give rise to concern in respect of children regardless of whether you intend children to have access to the premises, for example (but not exclusively) nudity or semi-nudity, films for restricted age groups or the presence of gaming machines.
9. Please list here steps you will take to promote all four licensing objectives together.
10. The application form must be signed.

Subject: Application Ref : EMF / 32991 / 175 / RPB - Crossings Service Station, 16 Stockport Road, Altrincham, Cheshire ("CSS") - FAO Messrs Taylor and Bate

Dear Ms Taylor and Mr Bate,

Application Ref : EMF / 32991 / 175 / RPB
Crossings Service Station, 16 Stockport Road, Altrincham, Cheshire ("CSS")
Postal Ref : LA0047/14

I live at the property immediately adjacent to the above petrol / service station which I note has applied to have the terms of its Licence amended whereby it may sell alcohol. I note that, currently, the premises are permitted to sell alcohol from 6am to midnight seven days a week but they are now seeking to sell alcohol 24 hours a day, seven days a week.

I wish to object most strongly to the above application which represents a major amendment to that previously agreed. I wish to object on the following grounds :-

1. Noise :

- Stockport Road is a major route into / out of Altrincham for pedestrian and vehicular traffic together with users of public transport (eg tram). After closing time – particularly at weekends – the sleep of my family has frequently been disturbed by late night revellers making their way home; much singing and "can-kicking" being prevalent. Noting that CSS are currently permitted to sell alcohol for 18 hours a day seven days a week, one can only presume that it is exactly this kind of customer that they are seeking to entice into the shop to purchase alcohol in the additional six hour period requested; ie the late night reveller?
- I am concerned that this Application will result in encouraging this same pedestrian traffic to stop at CSS with additional noise arising; for example the "beep-beep" of the cash machine as people make withdrawals (NB machine located adjacent to the "night hatch"), drunken "chatter" whilst purchases are made and the potential for additional noise as alcohol is consumed on site (eg whilst taxis are awaited)

2. Additional Vehicular Traffic / Parking : Currently, motor vehicles are occasionally parked close to the perimeter fence and engines are left running whilst passengers make purchases from the shop. Thankfully, currently such nuisance does not extend beyond midnight. However, should the Application be approved, I would be concerned that, unless parking is restricted to the forecourt only, this nuisance will increase

If you have any queries, please do not hesitate to contact me.

Yours sincerely,

The Licensing Objectives

PUBLIC NUISANCE

- 2.32 The 2003 Act requires licensing authorities (following receipt of relevant representations) and responsible authorities, through representations, to make judgements about what constitutes public nuisance and what is necessary to prevent it in terms of conditions attached to specific premises licences and club premises certificates. It is therefore important that in considering the promotion of this licensing objective, licensing authorities and responsible authorities focus on impacts of the licensable activities at the specific premises on persons living and working (including doing business) in the vicinity that are disproportionate and unreasonable. The issues will mainly concern noise nuisance, light pollution, noxious smells and litter.
- 2.33 Public nuisance is given a statutory meaning in many pieces of legislation. It is however not narrowly defined in the 2003 Act and retains its broad common law meaning. It is important to remember that the prevention of public nuisance could therefore include low-level nuisance perhaps affecting a few people living locally as well as major disturbance affecting the whole community. It may also include in appropriate circumstances the reduction of the living and working amenity and environment of interested parties (as defined in the 2003 Act) in the vicinity of licensed premises.^{2,7}
- 2.34 Conditions relating to noise nuisance will normally concern steps necessary to control the levels of noise emanating from premises. This might be achieved by a simple measure such as ensuring that doors and windows are kept closed after a particular time in the evening to more sophisticated measures like the installation of acoustic curtains or rubber speaker mounts. Any conditions necessary to promote the prevention of public nuisance should be tailored to the style and characteristics of the specific premises. Licensing authorities should be aware of the need to avoid unnecessary or disproportionate measures that could deter events that are valuable to the community, such as live music. Noise limiters, for example, are very expensive to purchase and install and are likely to be a considerable burden for smaller venues.
- 2.35 As with all conditions, it will be clear that conditions relating to noise nuisance may not be necessary in certain circumstances where the provisions of the Environmental Protection Act 1990, the Noise Act 1996, or the Clean Neighbourhoods and Environment Act 2005 adequately protect those living in the vicinity of the premises. But as stated earlier in this Guidance, the approach of licensing authorities and responsible authorities should be one of prevention and when their powers are engaged, licensing authorities should be aware of the fact that other legislation may not adequately cover concerns raised in relevant representations and additional conditions may be necessary.
- 2.36 Where applications have given rise to representations, any necessary and appropriate conditions should normally focus on the most sensitive periods. For example, music noise from premises usually occurs from mid-evening until either late evening or early morning when residents in adjacent properties may be attempting to go to sleep or are sleeping. In certain circumstances, conditions relating to noise in the immediate vicinity of the premises may also prove necessary to address any disturbance anticipated as customers enter and leave.
- 2.37 Measures to control light pollution will also require careful thought. Bright lighting outside premises considered necessary to prevent crime and disorder may itself give rise to light pollution for some neighbours. Applicants, licensing authorities and responsible authorities will need to balance these issues.

- 2.38 In the context of preventing public nuisance, it is again essential that conditions are focused on measures within the direct control of the licence holder or club. Conditions relating to public nuisance caused by the anti-social behaviour of customers once they are beyond the control of the licence holder, club or premises management cannot be justified and will not serve to promote the licensing objectives.
- 2.39 Beyond the vicinity of the premises, these are matters for personal responsibility of individuals under the law. An individual who engages in anti-social behaviour is accountable in their own right. However, it would be perfectly reasonable for a licensing authority to impose a condition, following relevant representations, that requires the licence holder or club to place signs at the exits from the building encouraging patrons to be quiet until they leave the area and to respect the rights of people living nearby to a peaceful night.
- 2.40 The cumulative effects of litter in the vicinity of premises carrying on licensable activities can cause public nuisance. For example, it may be appropriate and necessary for a condition of a licence to require premises serving customers from take-aways and fast food outlets from 11.00pm to provide litter bins in the vicinity of the premises in order to prevent the accumulation of litter. Such conditions may be necessary and appropriate in circumstances where customers late at night may have been consuming alcohol and be inclined to carelessness and anti-social behaviour.

EXTRACT :**Trafford Council – Licensing Policy 2011-2014 – Licensing Objectives****7.0 LICENCE OBJECTIVE – THE PREVENTION OF PUBLIC NUISANCE**

- 7.1 Licensed premises have a significant potential to impact adversely on communities through public nuisances which can arise from their operation.

The Council recognises the need to prevent public nuisance to residents, visitors and other businesses from the potential consequence of the operation of licensed premises, whilst balancing the rights of licensed premises to develop their business potential.

- 7.2 Public nuisance in this context includes such issues as noise and disturbance, light pollution, odour, vermin and pest infestations, accumulations of refuse and litter, and anti-social behaviour, where these matters impact on those living, working or otherwise engaged in normal activity in an area.
- 7.3 The Council, however, recognises that licensing law is not a mechanism for the general control of anti-social behaviour by individuals once they are away from the premises and therefore beyond the direct control of the individual, club or business holding the licence.
- 7.4 Applicants will be expected to demonstrate in their operating schedule that suitable and sufficient measures have been identified and will be implemented and maintained with the intention of preventing public nuisance.
- 7.5 In considering applications, the Council will expect to see evidence that the applicant has identified matters that impact on the likelihood of public nuisance and that these matters have been addressed in the operating schedule. Such measures may include:
- Measures taken or proposed to be taken to prevent noise and vibration escaping from the premises or the immediate vicinity of the premises and including any outside areas (including smoking areas) bearing in mind the location of premises and proximity to residential and other noise sensitive premises (e.g. hospitals, hospices and places of worship); This would include music, ventilation equipment noise and human voices, whether or not amplified;
 - Measures taken or proposed for management and supervision of the premises and associated open areas to minimise unreasonable disturbance by customers and staff arriving or departing from the premises and delivery of goods and services.
 - Control of opening hours for all or part (e.g. garden areas) of the premises
 - Measures taken to control light to ensure that it does not stray outside the boundary of the premises such as to give rise to problems to residents in the vicinity
 - Steps taken to lessen the impact of parking in the local vicinity
 - Measures taken to prevent someone who has consumed excess alcohol from entering the premises and to manage individuals on the premises who have consumed excess alcohol
 - Management arrangements for collection and disposal of litter and refuse, and the control of pests
 - Arrangements for ensuring that adequate and suitably maintained sanitary provision and washing facilities are provided for the number of people expected to attend any premises or events
 - A 'wind down time' after the last service of alcohol, during which time the venue may offer for sale non-alcohol beverages
 - A 'last admission time' policy
 - Management arrangements for any proposed use of bonfires, fireworks and other pyrotechnics.
- 7.6 The extent to which the above matters need to be addressed will be dependent on the nature of the area where the premises are situated, the type of premises concerned, the licensable

activities to be provided, operational procedures and the needs of the local community. In general, however, the Council will expect more comprehensive measures to be in place at late night entertainment venues or in premises with a history of public nuisance issues.

7.7 The Council will have regard to representations from the responsible authorities to determine if measures proposed are sufficient to reduce the risk of public nuisance. Where representations indicate that any matter has not been addressed sufficiently to prevent public nuisance the applicant will be expected to demonstrate that the issues can be satisfactorily addressed before the Council will grant an application for a licence or a variation.

7.8 Where appropriate the applicant will be expected to propose practical steps to prevent disturbance to local residents and to have regard to the "Good Practice Guide on the Control of Noise from Pubs and Clubs" produced by the Institute of Acoustics. Where noise has been identified as a potential problem by the applicant or Council officers, then the Council would expect the applicant to detail the measures proposed to address this issue within the operating schedule. Noise could relate not only to music but also from air handling equipment or from patrons. There are a number of practical ways in which sound leakage can be addressed, such as:

- Keeping doors and windows closed and providing adequate mechanical ventilation or, if necessary, air conditioning
- Reducing sound levels and installing a sound limiting device to prevent sound exceeding the appropriate level
- Installing soundproofing measures to contain sound and vibration.

7.9 In premises where patrons leave the premises particularly late at night or early in the morning, the Council will expect the applicant to have included in the operating schedule practical steps for reducing noise disturbance, such as:

- Erecting prominent notices at the exits to premises asking customers to leave quietly and not to slam car doors, and to respect the rights of nearby residents
- At appropriate times making loudspeaker announcements to the same effect
- Instructing door staff to ask customers leaving the premises to leave the area quietly
- Reducing the volume of music towards the end of the evening and where appropriate playing quieter, more soothing music as the evening winds down
- Banning from the premises people who regularly leave in a noisy manner
- The supervision of any queues formed late in the evening so as to keep noise and disturbance to a minimum.

7.10 Where relevant representations have been received, conditions may be imposed which include restrictions on the times when music or other licensable activities may take place and may include technical restrictions on sound levels at the premises.

7.11 In considering an application, the Council will take into account previous noise and nuisance complaints, and the ability/willingness of the licensee to deal with such complaints.
