

Trafford's Local Transformation Plan and Mental Health review 2022-2023

Background

- Local transformation plans were first published in 2015 and cover the whole of England. They set out how local services will invest resources to improve children and young people’s mental health across the “whole system”
- Plans should be a ‘transparent, organic living document, locally developed by partnerships that include the NHS, Local Authority Children’s Services, the voluntary and third sector, education and justice agencies and children, young people and their families/carers’.
- The LTP sets out delivery against national ‘key lines of enquiry’ (KLOEs) and strategic priorities in line with the NHS Long Term Plan.
- In October 2022, Children and Young People’s Mental Health (CYPMH) Commissioners in Greater Manchester undertook a review of local transformation plans and audited these against the latest KLOEs, providing a summary assessment against the national and GM expectations. We ‘RAG’ rated each priority area and provided assurance and references of what is in place or in development locally to deliver on the high-level priorities.

Trafford's Local Transformation Plan

The refreshed plan outlines Trafford's ambition to support children, young people and families mental health and wellbeing . There are 5 key priority areas within our LTP these are:

- Improving Access to Effective Support
- Caring For the Most Vulnerable
- Accountability and Transparency
- Shaping the Workforce
- Promoting Resilience, Prevention, and Early Access

Proposal

- Moving forward – GM ICB responsibility to submit and publish regional transformation plan
- **How do we want to proceed as a locality?**
 - Adopt Salford model on Trafford's Directory / Local Offer
 - Develop Trafford annual summary
 - Include accompanying documents to support summary
 - Platform to include strategic priorities and plans for children and young people mental health services
 - Moving towards MFT trust footprint delivery
 - Supports development of Thrive hub and culture in Trafford in line with neighbouring areas within MFT footprint

Salford Council Thrive Directory

Partners in Salford About the partnership Our partnerships ▾ Latest news Contact Sitemap **Contact** 🔍

The directory is a dynamic document, full of shortcuts and hyperlinks that allows users to navigate either via a thematic search or the Thrive quadrants.

Please do not print the document, either use via this webpage or download a copy to your desktop.

We will be updating the directory on a quarterly basis, to receive an email alert please email EHWB@salford.gov.uk and you will be added onto the distribution list.

Salford CAMHS have also developed a Covid-19 support plan outlining steps they will be taking to support the next phase of their Covid-19 response – the PDF is available in the downloadable section at the bottom of the page.

Manchester Thrive Hub Offer

The strategic vision is to establish a Manchester THRIVE Hub as a point of entry, a front door, to Manchester's Emotional Wellbeing and Mental Health offer. This will involve having a Manchester THRIVE Hub Team based in three locality THRIVE centres across Manchester, i.e. Central, North and South locality. District based hub in each of the Localities; Central, North and South Manchester.

Key highlights

Trafford's LTP showcases some great progress and transformation programmes underway in Trafford

It also highlights and identifies areas requiring focus, such as Children & Young People's Mental Health services as a wider system such as increasing referrals, waiting times and a joined up system approach.

Localities are moving towards different ways of working – MFT footprint / regional footprint

Work is currently underway to improve the mental health offer in Trafford for children and young people. In 2022, a review into CYP Mental Health was carried out.

Children & Young People's Mental Health Review

- Following the review a steering group has been established with multi –agency representation
- An action plan has been developed with five main themes identified:
 - **Theme 1:** Improving Mental Wellbeing into adulthood through prevention and early identification
 - **Theme 2:** Supporting families to self-care and access services appropriately through the provision of high-quality information and advice
 - **Theme 3:** To support our children, young people and families to access the appropriate care at the appropriate time (SPOA & Local/GM Offer)
 - **Theme 4:** Enabling the health and social care system to support the mental wellbeing of our children, families and workforce-(training and development)
 - **Theme 5:** To hear and listen to our children, families, and workforce about mental wellbeing and to ensure we respond (engagement & communication)
- Task and Finish groups have been set up for each theme which feed into the steering group
