ADDITIONAL INFORMATION

An error has been noted in paragraph 29 of the Committee Report. The report states that the Shawe View terrace was constructed between 1937 and 1961. This is incorrect.

Following further assessment of historic maps, the terrace appears to have been constructed in two phases. The easternmost section is evident on historic maps in 1888, and the westernmost section is evident on historic maps in 1904.

As per the committee report, the terrace is not considered to be a non-designated heritage asset.

Insert new paragraph after para.113. Current para.114 becomes para 115.

114. The proposal does not fully comply with policy L7 and some conflict with the development plan has been identified. The type of affordable housing proposed in this case to meet a specialised need of supporting people out of homelessness is considered to be a significant material consideration which outweighs this development plan conflict.

RECOMMENDATION

The recommendation of approval subject to conditions is unchanged.
