Hi Suzanne,
Please find plan attached
Tom at VW is still in negotiation with Man Utd and I will update once we get clarification.
Thanks
Lee

Thanks Lee. If you can send over the updated Traffic Management Plan as soon as it is finalised, we can let you know of any comments / feedback. Also any updates in terms of using a section of the E3 car park on match days for queueing.

Kind regards

Subject: Traffic Management meeting 1st February 2022

Hi all,

Please see below for key expectations from the meeting held between AMG, ETC, CSS and Trafford Council on 1st February 2022

Upon ingress to an event which is the same date and time as an event at Manchester United, there is to be minimal impediment to foot traffic on the footpath from our barriers. Patrons of both events should be able to travel freely along as they wish.

The barrier for AMG events begins only at the blue metal barrier near the end of the wall and E3 car park. No barrier before that point on the footpath.

For all events to deter parking, separated Chapter 8 barrier is laid out on the layby only, and cones are laid out along the bike lane to deter vehicles from stopping.

No Met barrier at all to be placed on the road.

Use of a portion of E3 Car Park on match days for a small Disney style queue enabling us to have more queue capacity. The car park is leased by VW Hotel and as such any dialogue needs to be between VW and MAN UTD. Tom at VW has approached Man UTD regarding this. We will update once he gets a response.

With these changes in mind, we will need an updated Crowd Management plan for ingress to the venue. We will also improve our wayfinding signage and stewarding outside the venue on Trafford Wharf Road. Signage will be placed on the wire fencing around E3 car park to clearly mark the entrance to the venue.

Due to the planned building works on the venue by James Cohen, these measures are temporary and subject to change. Steve Hoyland has an ongoing dialogue with James Cohen and will update with more information when he has it.

We are fine to proceed with the TTRO. The timescale for completion on this is 6 weeks, but interim measures will be put in place to allow us to operate with this in the meantime.

The timing of the TTRO needs confirming RE ingress. The TTRO is in place predominantly for egress, but we will be mindful of the risk of certain events on ingress.

There is an ongoing dialogue between local stakeholders namely Jim Liggett (safety

and security lead at Man UTD), VW Corporate and the events team at OTCC

Please see attached for images on how the barrier and ingress layout will be set up.

Kind regards,

Lee
