ANNOUNCEMENT

96465/FUL/18 - 74 Bankhall Lane, Hale WA15 0LW

It was reported to the Committee that an Appeal decision regarding this site had been received. The planning application proposed a 64 bedroom care home on the site of one dwelling.

It was highlighted that at the May meeting of the Planning and Development Management Committee it was explained that an Appeal against the application's non-determination had been lodged and a report was presented to Members to establish the stance to adopt at the Public Inquiry into the Appeal. The Inquiry, which lasted eight days, took place in June this year.

The Council's case centred around three reasons for refusal, as follows:

- A detrimental impact upon landscape character.
- Harm arising to the adjacent Conservation Area.
- Unjustifiable impacts to protected species.

There were further concerns surrounding the model of care proposed, the lack of need for this type of facility, the site's unsustainable location, the limited garden space and the lack of opportunities for residents to integrate with the community.

The Council put forward five witnesses to defend its case along with a barrister to present the arguments to an independent Planning Inspector; the Applicant did the same. A Local Residents Group also formally participated in the process, complementing the Council's position.

The Inspector's decision was issued on 7th August 2019 and confirmed that the Appeal had been dismissed and that planning permission would not be granted. The Inspector agreed that the proposed development would be damaging to landscape character. In addition, it was accepted that the site has poor access to the local area for prospective residents and that the design and model of care proposed was inappropriate, however, the arguments regarding harm to protected species and to the Conservation Area were not accepted.

Trafford Council's lack of a five year housing land supply was acknowledged by the Inspector and it was accepted that the proposal would make a useful contribution to housing targets. Even so, the Inspector agreed with the Council that, overall, the benefits of the development would be significantly and demonstrably outweighed by the harms. Officers have concluded that the Inspector's position regarding the site's locational shortcomings for future residents is likely to preclude any further proposal for a care home on this site, even if it were reduced in size.

It was stated that Officers have very much welcomed the decision which confirms that

new housing should not be accepted at any cost even when the tilted balance is engaged, however, there were a series of accepted material harms in this case.

Councillor Bunting on behalf of the Committee thanked all Officers involved with the preparation, organisation and attendance at the Public Inquiry, a sentiment that was echoed by other Members of the Committee.

The meeting commenced at 6.30 pm and concluded at 9.00 pm.
