1.0 Background

- 1.1 The report provides a summary of performance against the Council's Corporate Plan and supporting management information, for the period 1st April to 30th June 2021, quarter 1.
- 1.2 This report provides a high level comparison to last year's performance. The focus this quarter has been on refreshing the priorities for the future given the impact of the pandemic and should be read in conjunction with the Executive Corporate Plan Refresh 2021/24 report.

2.0 Performance Update

- 2.1 There are many wide-ranging and existing strategies, initiatives and programmes of work underpinning the Corporate Plan and strategic priorities and all of these work together to deliver for the benefit of the residents and businesses of Trafford. During the last quarter we continued to work and deliver on a number of key areas including the Inclusive Economic Recovery Plan, Equalities Strategy, Carbon Neutral Action Plan, Economic Growth Framework, Poverty Strategy, Trafford Pledge Youth Engagement Task Force and Trafford Locality Plan amongst others.
- 2.2 Each strategic priority has a number of key performance indicators (KPIs). The table provides a summary of the indicators with a comparison this year compared to quarter 1 performance last year (20/21). The new measures will be outlined with the refreshed priorities.
- 2.3 The Corporate Plan report outlines activities that are a combination of qualitative and quantitative activity. The output for each quarter depends on the deliverables that are achieved for that quarter.
- 2.4 This quarter's performance, has continued to be a mix of having to deal with the continued effects of Covid-19 while simultaneously continuing our Recovery Plan to build back better. Covid-19 has affected the borough in so many different ways and continues to do so.

- 2.5 The effect of Covid-19 has had an impact on many of the figures from the middle of March 2020 and this continues to have an impact on performance measures. For example, housing completions for this quarter are lower than last year although affordable housing completions are higher and the pipeline of homes available has increased from 4,273 in March to 5,174 in September. The performance is fairly static across a number of KPIs although we are now seeing an increase in the number of people admitted to Residential or Nursing Care after last year seeing a reduction. The Trafford Pledge numbers are lower and the apprenticeships numbers are significantly higher.
- 2.6 All KPIs are being revisited as part of the Corporate Plan refresh.
- 2.7 A summary of Quarter 1 2021/22 outturn is outlined below.
