TRAFFORD COUNCIL

Report to: **Executive**
Date: **23rd January 2023**
Report for: **Decision**
Report of: **The Executive Member for Finance and Governance and the Director of Finance and Systems**

Report Title:

Corporate Plan Performance and Budget Monitoring 2022/23 Period 8 (April to November 2022)

Summary:

The purpose of this report is to inform Members of the 2022/23 summary forecast outturn figures relating to both Revenue and Capital budgets. It also summarises the latest forecast position for Council Tax and Business Rates within the Collection Fund.

This report also provides a summary of performance against the Council's Corporate Plan, the period 1 April to 30 November 2022.

Recommendation(s)

It is recommended that the Executive:

a) note the updated summary positions on the revenue budget, collection fund, capital programme and Prudential Indictors.
b) Note the virement approved by the Director of Finance and Systems within the Capital Programme of £220k held under the hybrid working scheme within Place Directorate to the Office 365 programme within Finance and Systems Directorate.
c) Note the additional capital grant of up to £2.97m for a Local Authority Housing Fund, subject to the submission of a programme to DLUHC on 25 January 2023.
d) Note that the Prudential Code now requires that the Council report and monitor Prudential Indicators on at least a quarterly basis during the financial year and will be reported in this bi-monthly monitoring report going forward.
e) Note the contents of the Corporate Plan Performance for Quarter 1 and 2.

Contact person for access to background papers and further information:

David Muggeridge, Head of Financial Management Extension: 4534
Dianne Geary/Sarah Haugeberg Extension: 1821

Background Papers: None

Relationship to Policy Framework/Corporate Priorities	Value for Money The Corporate Plan 2022/23 report summarises the Council's performance in relation to the Council's Corporate Priorities
Relationship to GM Policy or Strategy Framework	The Corporate Plan is aligned to the GM policy and strategy where required.
Financial	Revenue and capital expenditure to be contained within available resources in 2022/23.
Legal Implications:	Legal advice is provided in relation to the Corporate Plan 2022/23 as and when required
Equality/Diversity Implications	The Corporate Plan enables the Council to fully observe & promote equality of outcomes for service users and their families.
Sustainability Implications	None arising out of this report
Resource Implications e.g. Staffing / ICT / Assets	Not applicable
Risk Management Implications	A risk management log has been developed as part of the overall governance for the Corporate Plan and this will be reviewed and updated on a regular basis.
Carbon Reduction	The Corporate Plan is a key driver to supporting carbon reduction, delivering the Council's Carbon Neutral Action Plan and supporting the growth of the green economy
Health & Wellbeing Implications	Not applicable
Health and Safety Implications	Not applicable

SECTION 1 - EXECUTIVE SUMMARY

1. The approved budget for 2022/23 agreed at the 16 February 2022 Council meeting was £192.57m. In determining the budget an overall gap of £20.14m was addressed by a combination of additional resources of £3.39m from Council Tax, use of reserves, £7.10m to address COVID-19 pressures and £4.33m for business as usual pressures, and £5.32m of service savings and additional income.

2. Summary of outturn

2.1 **There *is a net estimated outturn pressure of £4.97m at Period 8, an improvement of £1.09m since Period 6. Note this position includes:-***

- the current performance against the approved budget which is a projected underspend of £229k (See Table 1 below)
- the impact of inflation, which is significantly higher than the provisions included in the approved budget, is currently estimated to cost an additional £5.2m in 2022/23. This is an improvement of £0.3m since period 6 position and is now more reliable given that the 2022/23 pay award has been finalised and energy prices over the short term have been determined. Government have confirmed that no additional resource will be available in 2022/23 and that local authorities will need to manage the impact of this themselves, which means this will affect the delivery of other Council services. (see paragraphs 3 and 4 below)

2.2 At this stage in the financial year, there is a greater degree of certainty in the potential final outturn and this has been used as a broad direction of travel for the current year as well as preparing the Final Budget for 2023/24. However given the fragility and volatility in the wider economy, estimates could vary over the remaining four months of the year.

2.3 Although the estimated outturn is adverse, it should be noted that there are a number of assumptions and factors which have the potential to positively affect the figure. For instance there are contingency items within demand led services with £226k and £208k in Children's and Adults Services, £590k in the corporate budget contingency. In addition, savings are resulting from management action, particularly surrounding the tightening of the vacancy management process.

2.4 Detailed below in Table 1 is a summary breakdown of the service and funding variances against budget, with Appendix 2 providing an explanation of the variances.

Table 1: Budget Monitoring results by Service	2022/23 Budget (£000's)	Forecast Outturn (£000's)	Forecast Variance (£000's)	Percent-age
Children's Services	45,041	46,816	1,775	3.94%
Adult Services	57,433	57,197	(236)	(0.41)%
Public Health	12,918	12,793	(125)	(0.97)%
Place	31,325	33,702	2,377	7.59%
Strategy & Resources	9,690	9,110	(580)	(5.99)%
Finance & Systems	8,482	8,518	36	0.42%
Legal & Governance	2,724	3,098	374	13.73%
Total Directorate Budgets (*)	**167,613**	**171,234**	**3,621**	**2.16%**
Council-wide budgets	24,959	21,109	(3,850)	(15.43)%

Funding				
Business Rates	(68,540)	(68,540)	0	
Council Tax	(112,601)	(112,601)	0	
Reserves Budget Support	(4,334)	(4,334)	0	
Reserves to Support COVID-19	(7,097)	(7,097)	0	
Funding variance	**(192,572)**	**(192,572)**	**0**	**0.00%**
Net Revenue Outturn variance	**0**	**(229)**	**(229)**	**(0.12)%**
Dedicated Schools Grant	**157,130**	**158,783**	**1,653**	**1.05%**

* Any change to the revenue budget by Directorate is shown in the details of virements in Appendix 1.

The following issues are worthy of being highlighted at Period 8:-

Directorate Budgets - £3.62m overspend a favourable movement of £663k from Period 6.

- **Children's placements** £636k overspend an adverse movement of £176k in the period largely due to new placements being made and the release of the contingency budget not sufficient to cover these costs. A contingency budget of £226k has been included for the remainder of the year.
- **Home to School Transport** pressures have increased in the period by £119k to £1.266m due to the continued increase in demand in passenger numbers, additional costs for fuel and complexity of cases. This area is being scrutinised through the Finance and Change Programme with support from the Business Intelligence and the Trafford Travel Co-ordination Units in order to reduce the overspend.

- **Adults placements** an underspend of £181k, a favourable movement of £140k from period 6, however assumptions on demand remain uncertain; a contingency balance of £208k has been included for future demand.
- **Adults Hospital Discharge Programme** – In October 2022 the Government set out the government's 'Our Plan for Patients' to improve access to the NHS and social care, this winter and next. To help people get out of hospitals and into social care support, the government launched a £500 million Adult Social Care Discharge Fund. Details of the scheme were announced in November including individual Local Authority and Health Authority shares. Joint plans are currently being developed on resource commitments and this may have the potential to benefit the in-year position.
- **Strategic Investment Programme** – The Strategic Investment Property Portfolio is expected to deliver a net benefit to the revenue budget in 2022/23 of £5.35m. This is £1.89m lower (£23k favourable movement from Period 6) than budget due to economic factors affecting some of the income particularly from the town centre investments. Work continues in identifying a positive pipeline of investment opportunities, although pressures in the wider financial climate have caused a delay in potential schemes. Work will continue in order to identify further investments which will provide a revenue return as part of the Asset Investment Strategy's recycling target.
- **Staffing budgets** across all service areas are forecast to underspend by £1.93m, a favourable movement of £1.01m since last reported. This is an area of significant underspend, largely due to difficulties in recruitment and the management controls introduced in the year. In order to manage the overall in-year budget pressure, the Council amended the vacancy management process to add a recruitment pause of 4 weeks before a post is released to be advertised. This policy has also been extended into 2023/24 as part of our Budget plans.
- Other net adverse movements of £1.94m across all service areas; an adverse change of £212k since last reported. This includes pressure on delivery of some aspects of the savings programme from 2021/22 of £245k relating to estates and business rate reviews.

Council Wide Budgets - £3.85m underspend a favourable movement of £127k from Period 6.

- The recent rises in the Bank of England base rate continues to have a positive impact on the level of investment income generated by the investment of surplus cash balances of £2.23m a net positive movement of £318k since period 6.
- **Impact of COVID-19** – There continues to be nothing to suggest that the impact of the pandemic is having any adverse pressure on income from Sales, Fees and Charges at this stage of the year, which cannot be managed within service budgets. **The balance of the centrally held COVID-19 contingency budget of £1.5m has therefore been released in full as previously reported.**

- Other Council Wide net favourable variances of £120k.

- **Schools DSG**
    - The overspend on the schools DSG budget is now £1.65m, an adverse movement of £918k since last period.
    - The high needs block still has significant pressures with a forecast overspend of £2.17m. Work continues to take place on this with a HNB Sub-Group of the funding forum which is working on a report to summarise options for longer term savings.
    - In addition to this work a meeting has also been held with the Education and Skills Funding Agency (ESFA) to progress work on a DSG Deficit Recovery Plan which will also assist in future planning.

3. Inflation, Energy and Cost of Living Impact

3.1 The Consumer Price Index (CPI) rose by 10.7% in the 12 months to November 2022, down from 11.1% in October, however it continues to remain near a 40 year high. Unbudgetted pressures have been a particular concern relating to energy prices, contractual inflation from companies in our supply chain and the impact of the 2022/23 local government pay award.

3.2 The assumptions on inflation have become firmer as the year has progressed with the likes of the 2022/23 Local Government pay award having been agreed at an increase of £1,925 on all NJC pay points. This represents an average increase of approximately 6% across the payscale and a figure of £3.11m above budget.

3.3 Pressures are also being felt in other contractual inflation and responses to alleviate pressures in care payments such as Foster Care allowances.

3.4 Energy contracts remain volatile due to fluctuations in world energy prices, however forecasts have become more reliable as the Council's purchasing consortium operate forward purchasing options. As at Period 8, increases in energy contracts are expected to cost £1.33m, which is the same as reported at Period 6.

3.5 Not only does the escalating level of inflation pose a risk to the in-year position, where solutions need to be found to contain any pressures within existing resources, but also the impact on the Medium Term Financial Plan and increase in the budget gap in future years. Significant additional resource to cover the on-going inflationary pressures from 2022/23 has been added to our 2023/24 Draft Budget as presented to the Executive on 24th October 2022.

3.6 ***Our*** **working** ***assumption on the impact of the various inflation pressures in 2022/23 suggests that a figure of £5.2m would be needed in the current year which is £0.3m below the assumption made at Period 6.***

4. Summary of Outturn and Management Action

Service Outturn

4.1 There is a favourable service-related outturn of £229k, a positive movement of £790k since Period 6. Pressures continue to increase in Children's Services, particularly in Home to School Transport. Sizeable positive movements have been achieved in Treasury Management budgets due to increased income from the rise in interest rates and underspends from staffing budgets, relating to difficulties in recruitment and the revised process for vacancy management.

Although there is a small positive estimated outturn, there remains a high degree of volatility in the assumptions used for the forecast, it is therefore essential that the Council maintains a prudent approach to managing the budget for the remainder of the year and the following actions should remain in place or be noted

- A number of contingency items are included in the outturn which have yet to be released. These include £226k and £208k in Children's and Adults services respectively for future potential increases in client demand and £590k in the corporate budget contingency.
- The management controls introduced in 2021/22 to approve all vacancies, coupled together with a further pause of 4 weeks before the post is advertised will continue for the foreseeable future.
- A freeze on all non-essential spend was introduced and should remain in place.
- There are a number of earmarked risk reserves, such as the Strategic Investment Risk Reserve and Business Rates Risk Reserve which could be drawn upon, if income levels in these budgets deteriorate.
- As part of the Draft Budget 2023/24 an additional £1.5m has been added to address the impact of unavoidable recurrent demand pressures within Children's services and Home to School Transport. The resource may need to be adjusted further if the pressures in these areas continue to increase.

Inflationary Pressures

4.2 In respect of inflation, which is now almost certain to add a £5.2m pressure in year, representations were made to the Government with regards to the impact, however no further support for the current financial year was announced in the recent Autumn Budget or the Provisional Local Government Settlement.

4.3 It is essential that any in year pressure is managed downwards to avoid any charge being made on the limited level of earmarked reserves the Council holds. Any significant use of reserves will impact on the resilience to support the Finance and Change programme in delivering a sustainable budget in future years.

4.4 Various measures to mitigate the impact of inflation are being undertaken; these include

- As reported in previous periods, the Council created a specific Inflation Risk Reserve of £3.0m during the 2021/22 closedown. The full amount of this reserve will be released as a one off measure.
- A figure of £1.0m will be released from the central contingency budget of £1.6m. Although this will leave no flexibility for other unknown pressures during the year.
- Clarity on the utilisation of the additional resource identified by the Government to alleviate the pressures in hospital bed blocking will be available soon. This may allow the Council's base budget for the Hospital Discharge Programme to be utilised against the overwhelming inflationary pressures.
- As part of the work being undertaken by the Finance and Change Board, to investigate whether opportunities exist to accelerate potential future savings proposals. A significant savings proposal in 2023/24 relates to a review of treasury management financial assumptions and if approved at Budget Council in February 2023, could be applied in the current financial year. This would have a material impact on reducing the in year pressure.
- The launch of an energy saving campaign, pre-purchasing materials to maintain supply and avoid increasing costs and an extension to the vacancy management process.
- Before the final budget for 2023/24 is agreed, a review of all earmarked reserves will be undertaken to challenge and identify potential uncommitted resource.
- As in the previous financial year, in order to maintain robust challenge and focus attention on the delivery of the savings programme, the regular budget monitoring reports is supplemented by monthly updates on all demand led budgets and the savings programme to be considered by the Corporate Leadership Team.

5. Corporate Performance

5.1 The Corporate Plan continues to reflect our service operation and core values in the delivery of public services, in collaboration with our communities, businesses and partners. A summary of performance to date, against the Council's Corporate Plan and supporting management information for the refreshed priorities, for the period 1 April to 30 September 2022, Quarter 1 and 2 is outlined in Appendix 5.

5.2 A dashboard of the three corporate priorities measures can be accessed on the Trafford Data Lab website: https://trafforddatalab.shinyapps.io/corporate-plan/. The dashboard visualises a range of indicators relating to each of the three strategic priorities. These show trend data for Trafford compared to the average of other similar Local Authorities (in terms of statistical characteristics) and also, where possible, to England. The annual indicators are outlined in Appendix 6.

There are a total of 57 indicators that are monitored as follows:

Strategic Priority	Annual Indicators	Quarterly Indicators
Reducing Health Inequalities	10	-
Supporting People out of Poverty	2	11
Addressing our Climate Crisis	11	3
Council wide	-	20

5.3 For many of the key performance indicators, the data is only updated annually, often via nationally published data, so a full performance report is not possible for this period. For this report only the quarterly performance indicators are reported on in Appendix 5.

5.4 Of the Quarterly Indicators, there are currently 7 indicators with a red status, 8 with amber status, 17 with green status and 2 with no RAG status.

5.5 Performance has continued to be a mix of having to deal with the continued effects of Covid-19. For some indicators benchmarking or comparisons with the previous year is difficult. For example, the percentage of primary school children achieving the expected standard in reading, writing and maths (Key Stage 2) has had a 10 point reduction. A drop in performance was expected to some degree due to restricted attendance at school during the pandemic.

5.6 Some Council Service metrics are also included in the report as although they are not included in the priorities they provide a performance update for a range of services the Council provides. Areas achieving 5% below target include: timeliness of FOI requests, number of new apprenticeships, Adult Social Care clients receiving direct payments, Education Health Care Plan (EHCP) timeliness and Proportion of Care Experienced Young People in touch with a social workers or aftercare worker within last 8 weeks. More information is available in Appendix 5.

SECTION 2 – COLLECTION FUND

6. Council Tax

6.1 As at Period 8, there is a favourable outturn on the Council Tax element of the Collection Fund of £473k, a favourable movement of £54k from Period 6, of which the Council's share is £385k. The table below summarises the outturn by theme as at Period 8.

Table 2: Summary of in year Council Tax movements	Council Tax Collection Fund (£000's)	Trafford Share (£000's)	Movement in Trafford share since P6 (£000's)
Shortfall in Tax Base	491	341	(26)
Local Council Tax Support Scheme	(338)	(275)	18

Reduction in Cash Collection current year	481	392	0
Increase in Cash Collection (prior year)	(1,200)	(977)	0
Other Movements (Backdated discounts etc.)	165	134	52
Total In Year Position (Surplus)/Deficit	**(473)**	**(385)**	**(44)**

As at period 8 the following points are worthy of note:

- There is a shortfall in the core Tax Base of £491k. This is due to an increase in the number of discounts (e.g. single person) being claimed over that assumed in the budget. The Council continues to review and challenge applications for claims, and these may reduce during the remaining part of the year. There is also a further pressure in the core tax base as a result of the delay in new properties coming on-line.
- The number of claims for Council Tax Support is lower than budget by £338k. This is relatively good news given that the budget was also increased to reflect a return to a lower pre-pandemic level of claims. This situation may however deteriorate as there is a potential for an increase in claims for support due to the wider economic downturn and the significant pressures on household finances forecast later in the year.
- Cash collection – in year cash collection is lower than anticipated when compared with pre-pandemic levels, however collection of historic debt is favourable, resulting in a net benefit of £719k (£1,200k less £481k).
- Other adverse movements of £165k, related to the award of backdated banding revaluations.

6.2 Over recent years and largely due to the pandemic, it has been difficult to forecast Council Tax income and this situation looks set to continue for the foreseeable future. In recognition of this, a Council Tax Risk Reserve of £500k was established in 2021/22 to smooth out any unforeseen pressures. This reserve would be used as a first call if the estimated outturn should deteriorate.

6.3 The Period 8 monitor is generally used to reaffirm the budget assumptions for the following financial year, and if there are any patterns which reflect an underlying trend. With the the shortfall in Tax Base and in-year cash collection continuing into period 8, there is an indication that the pressure will continue into 2023/24. Final budget plans for 2023/24 will reflect these patterns.

6.4 It is encouraging to see a positive improvement in historic collection rates, which has contributed to the in-year surplus of £385k; this will be distributed in 2023/24 and is a favourable movement to the estimated value of £250k assumed as part of our 2023/24 draft budget plans.

7. Business Rates

7.1 As with Council Tax, there was an assumption of an increase in rates income as the economy started to return to pre-pandemic levels. Projecting business rates is by its nature complex and prone to variation, and the continuing economic pressures will add further uncertainty to the accuracy of projections.

7.2 The forecasted outturn for business rates remains favourable, the benefit of which will be released in 2023/24. Whilst assumptions are broadly in line with the 2023/24 draft budget plans, the recent reductions in Rateable Value, largely due to significant refurburbishments in some premises at the Trafford Centre which occurred in period 6 still remain. These reductions are temporary in nature, however it has resulted in a negative movement since Period 6 which may require the Business Rate Risk Reserve to be utilised to smooth the impact.

7.3 Discussions are ongoing with the Valuation Office Agency to understand the nature and longevity of the reduction in Rateable Value and thus the potential for the ongoing impact into next financial year.

SECTION 3 – SAVINGS AND INCOME PROGRAMME

8. MTFP Savings and Increased Income

8.1 The 2022/23 budget is based on the achievement of permanent base budget savings and increased income of £5.32m. As in previous years, it is critical that the current savings programme is achieved in full in order to avoid recurrent shortfalls cascading into future years and increasing the budget gap.

8.2 A detailed review of the status of each saving has been undertaken and a classification has been made using a “traffic light” system to highlight schemes at risk of not being achieved. Whilst some savings will be achieved through one-off alternative means/mitigating actions in the current year, a status has also been included on the risk of non-delivery falling into 2023/24.

Details of the savings ‘in exception’ of £1.335m are shown in Appendix 3 and a summary is as follows:

Table 3: Category	Number of Schemes	% of Schemes	Savings Budget (£000’s)	Projected Outturn (£000’s)	Net Variance (£000’s)
Red	2	9%	(1,140)	0	1,140
Amber	10	43%	(1,579)	(1,384)	195
Green	11	48%	(2,603)	(2,603)	0
Total	**23**	**100%**	**(5,322)**	**(3,987)**	**1,335**

The latest forecast shows that the programme is currently expected to deliver savings of £3.99m, which is £1.33m below target. 12 schemes are classified as either Red or Amber status, of which the largest shortfall of £1.04m is from the Investment Strategy programme.

SECTION 4 – EARMARKED RESERVES

9. Reserves

9.1 Details of the reserve balances brought forward and estimated movements in 2022/23 were reported in the Draft Revenue Budget Report 2023/24 to Executive on 24th October 2022. It was concluded that due to the low level of reserves there was little headroom for any further substantial release of resources to support the budget gap and at the same time provide sufficient robustness to absorb the major financial risks over the short term.

9.2 Any adverse outturn in the current year will be a further strain on the limited reserves and it therefore essential every effort is made that the forecast adverse variance is brought back in line with budget. Any deterioration in the level of reserves will need to be considered by the Director of Finance and Systems when presenting his opinion on the robustness of the future budget plans.

SECTION 5 – CAPITAL PROGRAMME AND ASSET INVESTMENT STRATEGY

10. Approved Budget

10.1 The revised capital programme budget for this financial year is £66.06m which is net decrease of £2.53m from the P6 position of £68.59m and due to a small number of schemes that have been reprofiled to 2023/24 and the reduction in the Public Sector Decarbonisation Schemes (PSDS) leisure schemes. The following table details the movement since period 6.

Table 4 - Capital Programme 2022/23	**P6 Revised Approved Programme £m**	**Current Revised Programme £m**	**Period Movement £m**
Service Analysis:			
Children's Services	15.76	15.76	-
Adult Social Care	3.82	3.82	-
Place	46.93	44.48	(2.45)
Legal & Governance	0.05	0.05	-
Finance & Systems	2.03	1.95	(0.08)
General Programme Total	**68.59**	**66.06**	**(2.53)**

10.2 The current programme as detailed has been amended to remove £2.47m of grant funded PSDS works for Urmston Leisure. This is due to a number of issues arising which mean it is no longer possible to spend the grant by 31st March 2022 as included in the grant conditions. A key issue relates to structural surveys of the leisure centre roof which would require unexpected additional expenditure and service disruption to Trafford Leisure operations. Designs are also still subject to planning which means equipment cannot be ordered and delivered before the end of March. To proceed as originally planned would put the Council under significant financial risk and the scheme will therefore be re-appraised and re-phased to be put forward for future funding bids accordingly. There is still potential to include the scheme in future rounds of the PSDS programme so at this stage it is not anticipated that there will be any abortive costs.

10.3 In December the Government announced a new £500m Local Authority Housing Fund which will run over the financial years 2022/23 and 2023/24 to support the provision of accommodation for Ukrainian and Afghan families. Trafford's allocation in total is £2.97m of which up to £890k will be in 2022/23. These amounts will be subject to the Council agreeing proposals with DLUHC later in January and will be added to the budget at that stage.

10.4 Hybrid and Smarter Working (£220k), this budget held within Place Directorate has been reprioritised to assist with another element of hybrid working relating to the roll out of Office 365 across the councils ICT devices within the Finance and Systems Directorate. A budget virement of £220k to reflect this change was approved by the Director of Finance and Systems in accordance with his delegated powers.

11. Resources

11.1 The general capital programme is resourced by a combination of both internal and external funding and is detailed in the table shown below:

Table 5 - Capital Programme Resources 2022/25	Budget 2022/23 £m	Budget 2023/24 £m	Budget 2024/25 £m	Budget Total £m
General Programme Investment	**66.06**	**114.71**	**45.67**	**226.44**
Grants	47.42	70.83	9.83	128.08
External Contributions	3.05	4.80	1.40	9.25
Revenue and reserves	2.30	1.29	0.00	3.59
Prudential Borrowing	8.51	29.72	27.93	66.16
Forecast Capital Receipts	2.25	5.44	8.29	15.98
Total Funding	**63.53**	**112.08**	**47.45**	**223.06**
Surplus / (Deficit)	**(2.53)**	**(2.63)**	**1.78**	**(3.38)**

12. Asset Investment Fund

- Asset Investment Fund currently stands at a maximum approved limit of £500m, supported by prudential borrowing, to support the Council's Investment Strategy. The transactions that have been agreed by the Investment Management Board (IMB) to date have a total current committed cost of £297.48m, of which £235.51m has currently been expended.
- The debt facility for the Hut Group of £67.5m, originally agreed for the purpose of funding the construction of new office accommodation, has now matured without any drawdowns for the main facility, and so has been removed from commitments.
- The IMB has agreed a new debt facility of £27m at Sunlight House, in Manchester City Centre, to allow for the refurbishment to the Grade II listed building; providing regional regeneration and a revenue return to fund front line services.
- The balance of the approved £500m which is available for further investment is £202.52m (Table 6 below).

Table 6: Asset Investment Fund	Prior Years Spend £m	Repayments £m	Actual Spend 2022/23 £m	Commitment £m	Total £m

12.1 These investments are forecast to generate a net benefit to the revenue budget in 2022/23 of £5.34m, a deficit of £1.89m compared to the budget net target.

Key Variances include :-

- The 2022/23 budget assumed additional net income of £3.4m from schemes that were yet to be committed to. This figure represented the recycling of funds from schemes that have matured and been repaid, such as the Crescent. Two new debt investments had been agreed by IMB and included in the outturn forecast, Sunlight House and Network Space, providing an additional £93k and £146k respectively in 2022/23. Two further investments are currently undergoing due diligence and are close to completion, therefore, associated benefits have been included in the outturn position, to a net benefit of £159k in 2022/23. Work will continue to identify further investments which will provide a revenue return as part of the Asset Investment Strategy's recycling target.

- The IMB have agreed to a 6 month extension to the debt facility at the CIS Tower, at a lower balance of £34.2m. This extension, in addition to the four months up to the end of July that had already been agreed, will provide a net revenue return of £1.26m in 2022/23.

- The forecast net returns from the Council's debt investment in the Albert Estate have reduced, by £0.21m due to a partial repayment of the loan from £17.62m to £12.01m.

- The facility agreed with the Hut Group has matured and is now officially cancelled without any drawdowns taking place for the primary facility. Despite not being utilised, the facility provided a revenue return to the Council of £2.8m since its agreement in 2019 from commitment fees. The cancellation of the facility has reduced the expected net return in 2022/23 by £0.87m.

- A shortfall in returns from the Council's three joint ventures with Bruntwood of £0.85m, required to cover the Council's borrowing costs on the acquisition of the town centre assets in Stretford and Altrincham. This shortfall is a result of reduced trading income as the sites recover from the impact of Covid-19 on the retail sector, and prepare for regeneration schemes on both sites. This shortfall will be met from a draw from reserves in 2022/23, with the reserve balance replenished when the sites return to surplus.

- Higher returns to the value of £0.20m on debt facilities which are linked to variable interest rates.

- The Risk Reserve level at the start of the year was £6.31m. This level of reserve is currently considered to be sufficient in relation to the immediate risks that the portfolio is exposed to. The Council will, therefore, make reduced contributions in 2022/23, and £0.78m will instead be used as part of the mitigation of the forecasted income pressures.

	£000's

Contribution to support borrowing costs	(845)
Risk Reserve C/F	**5,464**

13. Prudential Indicators

- The Prudential Code requires authorities to look at capital expenditure and investment plans in light of the overall organisational strategy and resources and ensure that decisions are being made with sufficient regard to the long term financing implications and potential risks to the authority.

- Revision to the Prudential Code in 2021 added further requirements for Local Authorities to monitor and report against all forward looking prudential indicators on at least a quarterly basis. In addition a new indicator has been made a requirement for Local Authorities to review net income from commercial and service investments as a percentage of the Authority's net revenue stream.

- The Prudential Indicators will now be included as part of this bi-monthly monitoring report and are shown in Appendix 4. The indicators are grouped into three categories and the following observations can be made :-

14. Capital Expenditure Indicators

14.1 The overall level of general capital programme over the three year period has increased by £39.21m from the original approved position of £187.23 to £226.44m. This increase has been previously reported through the monitoring process and is as result of:

- Re-profiling from 2021/22 reported to Executive as part of the P10 and Capital Outturn reports for 2021/22 - £13.15m
- Increases in education grant funding - £17.62m
- Net increase in highways related grant funding - £4.19m
- New funding to support leisure centre and public sector decarbonisation schemes of - £4.09m
- Small increase in funding across other areas - £0.16m

14.2 The level of Capital Financing Requirement (CFR) has increased over three year due to reprofiling of significant elements of the capital investment strategy being rephased to 2024/25.

15. External Debt Indicators

15.1 External debts levels are forecast not to exceed those approved for 2022/25.

16. Affordability Indicators

16.1 There is a slight reduction in the “financing to net revenue stream” than original approved from 2022/23 due to lower assumed in year borrowing and is expected to remain below the approved level for the three year programme.

16.2 In terms of “Net Income for commercial and service investments to net revenue stream” it is expected that this will be slightly higher than approved as a result of better returns on investments.

17. Issues / Risks

17.1 A key risk is the ability to deliver the revised capital programme in 2022/23, and this will continue to be closely monitored and reported throughout the year and as any significant issues may arise.

17.2 In addition, there is the risk that the level of capital receipts that will be realised in the year and in future will be insufficient to fund the relevant schemes in the capital programme. A prudent approach to estimating these asset receipts and development returns will continue to be taken with only receipts that have a significant level of certainty being included in the resource forecasts.

18. Recommendations

It is recommended that the Executive:

a) note the updated positions on the revenue budget, collection fund, capital programme and Prudential Indicators.

b) Note the virement approved by the Director of Finance and Systems within the Capital Programme of £220k held under the hybrid working scheme within Place Directorate to the Office 365 programme within Finance and Systems Directorate.

c) Note the additional capital grant of up to £2.97m for a Local Authority Housing Fund, subject to the submission of a programme to DLUHC on 25 January 2023.

d) Note that the Prudential Code now requires that the Council report and monitor Prudential Indicators on at least a quarterly basis during the financial year and will be reported in this bi-monthly monitoring report going forward.

e) Note the contents of the Corporate Plan Performance for Quarter 1 and 2.

Appendix 2

Main variances, changes to budget assumptions and key risks

The main variances contributing to the projected underspend of £229k, any changes to budget assumptions and associated key risks are highlighted below:

Table : Main variances	Forecast Variance (£000's)	Explanation/Risks
Children's Services	1,775	**Projected outturn variance £1.775m adverse, favourable movement of £202k.** Below is the projected position on children's placements and other budget areas. • £636k over budget on Children's placements, adverse movement of £176k (note 1); • £880k under budget on staffing, favourable movement of £607k (note 2); • £1.266m over budget on home to school transport, adverse movement of £119k (note 3). • £753k over budget on other running costs and income across the service, adverse movement of £110k (note 4); **Note 1** Children's placements currently projects an overspend of £636k, an adverse movement of £176k. Within the overall position there is another £87k of planned reductions still to take place, a favourable movement of £109k from period 6. Contingency of £174k was utilised between period 6 and 8. Although not sufficient to cover the overall net increase in new placement costs of £639k, this has been partially offset by a combination of additional savings and a review by the service on health contributions made towards placements. There is still a contingency of £226k included in the above projections to cover any further demand, cost increases and potential timeline changes to the anticipated planned reductions mentioned above. The savings of £1.358m included in the budget has been achieved through a combination of work undertaken during 21/22 and its full year impact, planned and additional reductions for 22/23 and a review of funding received from health towards placements However there are still further planned reductions to take place and continuous scrutiny in this area will be applied. Projections on these may be subject to change.

The numbers of children as at the end of September compared to those at the end of July are as follows:-

- children in care 340, a reduction of 2
- child protection 235, an increase of 36
- children in need 757, a reduction of 9

Note 2
The favourable variance in staffing is £880k, favourable movement of £607k and is due to delays and difficulties in recruiting. These are one-off in nature as the service continues with its service redesign and recruitment drive during 2022/23.

The staffing savings included in the budget of £110k are expected to be achieved this year either through permanent reductions or due to the delays in recruiting as mentioned above. However, this will be reviewed throughout the year as to their permanency as the service redesign continues.

Note 3
The projected overspend in Home to School Transport of £1.266m, an adverse movement of £119k is due to:

- the service continues to see an increase in demand with further applications being received (21 new runs since the start of the academic year and 13 runs have had to be re-tendered resulting in increased costs);
- an increase in the complexity of cases, of which a number require transport to out of borough settings;
- the price increases on contracts being incurred due to the increase in fuel costs.

Note 4
The adverse variance in running costs and income across the service is £753k, an adverse movement of £110k as outlined below:-

- £71k adverse variance on Partington & Sanyu nurseries, no movement. The variance is due to a shortfall in income.
- £449k adverse variance in running costs, favourable movement of £5k. The variance is due to: -
    - one off costs to support a young person in hospital £208k adverse, adverse movement of £18k,
    - S17 costs £271k adverse, favourable movement of £24k. S17 payments are made where, for children in need, the authority identifies the needs for these children and ensures that the family are given the appropriate support in enabling them to safeguard and promote the child's welfare. As with placements

		the type of need required by each family can vary depending on the complexities. A review of all S17 payments is currently taking place to assess likely future years requirements. o Other costs £30k favourable, adverse movement of £1k. • £233k adverse variance on income and minor variances, £115k adverse movement due to loss of SLA income and training.
Adult Services	(236)	**Projected variance £236k favourable, a favourable movement of £245k from P6.** The impact of COVID-19 continues to have a significant bearing on the service in terms of demand, its service delivery and finances. This is expected to continue throughout this financial year. The areas of favourable variance and pressures are outlined below: • £125k favourable variance on adult clients (Note 1), £140k favourable movement from period 6. • £111k favourable position on staffing and a favourable movement of £105k on running costs. (Note 2). **Note 1** Adult Clients is projecting a £125k favourable variance as at period 6. This budget remains high in complexity and volatility as a result of COVID-19 due to the following:- • assessing the impact on clients of previous infection and long covid • assessing the long-term impact on clients unable to access services during this period • supporting the NHS with rapid discharges from hospitals as they deal with the backlog of patients waiting treatments • potential impact of new infections • increased mental health support **Packages of Care** – The P8 position is projecting a £181k favourable variance, a favourable movement of £140k from P6. Within the forecast is a contingency of £208k to mitigate new demand and increases to existing client costs that may present throughout the remainder of the financial year. **Discharge to Assess** – Between April 2020 and March 2022, national funding was available in the form of the hospital discharge fund. However, from April 2022, this funding is no longer available and local plans are required to sustain the current operating model.

		To meet this, the Council and Trafford CCG, now known as NHS Greater Manchester Integrated Care (Trafford Locality), established a joint one-off fund to support hospital discharges during 22/23 to enable the model to be reviewed as recurring budgets held by both organisations are not sufficient. The Council's recurring discharge to assess budget for beds is £1.5m and it was agreed that any costs in excess of this will be met from the joint fund. The government has since announced additional funding for Adult Social Care to continue to expediate hospital discharges, the Trafford locality could receive up to £2.2m that would enable increased capacity in Discharge to Assess Beds and additional homecare until the 31 March 23. **Savings** – The savings target for 22/23 is £219k and £50k savings have been achieved to date. The forecast assumes that the target will be under achieved by £56k, no movement from P6. Regular scrutiny continues in this area and updates will be provided throughout the remaining months of the financial year. **<u>Note 2</u>** The forecast projected outturn position for staffing and running costs is a favourable variance of £111k a favourable movement of £105k from P6 as outlined below: - • £13k favourable variance on staffing a favourable movement of £17k from P6. Within this position there is substantial pressure in the internal supported living service of £400k this is as a result of staff suspensions and the requirement to source cover from agency and casual workers to maintain safe staffing levels. This have been offset by significant underspends £413k across social care staffing budgets as a result of the continued difficulties in recruitment and retention. Further work is underway to assess the cost of a safe staffing establishment for the supported living service for 23/24 and future years. • £198k favourable variance on client equipment due to lower than anticipated activity a favourable movement of £88k from P6. The savings target on Liberty Protection Safeguards of £100k will not be achieved in this financial year due to the date of implementation which is set by central government being deferred.
Public Health	(125)	**Projected Outturn variance £125k favourable a favourable movement of £124k from P6.**

		This favourable position is due to staffing £113k and further £12k on activity related budgets. There is further scope for the underspend to increase due to the likelihood that projections on activity-based budgets will decrease as the year progresses, further scrutiny will be applied at P10.
Place	2,377	**Total projected outturn variance £2.377m adverse, an adverse movement of £170k.** **Place Revenue Budget £491k adverse, an adverse movement of £191k:** • Pressures include £239k relating to property costs (increased by £91k), including ongoing security costs at Trafford Town Hall, residual utility bills for properties disposed in 2021, and one-off costs associated with the PFI review of Sale Waterside. • There are also estates savings of £195k, and an additional £50k from business rate reviews, which are in the process of being finalised but not expected to be fully achieved in the current year. There is also a £50k saving from installation of EV points which has now been rephased to 2023/24. • There is a projected shortfall in building control income of £179k (increased by £65k), which is offset by a related underspend in staffing from vacancies. Projected net parking income is also £173k below budgeted target (£68k increase) due to later implementation of fee changes approved by Council in February 2022, rephased opening of Regent Road car park and ongoing effects of COVID-19 on demand compared to pre-pandemic. • Additional income above budget includes Altair £120k and other rents £10k (£6k increase). • Other net minor movements across all services are £19k adverse (reduced by £3k). • There is an estimated overall staffing underspend of £370k relating to vacancies forecast across the year (excluding the ringfenced Planning account) increase of £100k, which is approximately 4.9% of the staffing budget. This is offset by a Directorate-wide efficiency saving of £104k. • The Planning service is a ringfenced account and is projecting a shortfall in income of £316k (increased by £17k) which is offset by an underspend of £334k in staffing, running costs and reserve contributions (reduced by £10k). This is a net underspend of £18k for the year (£27k net adverse movement).

		Strategic Investment Programme £1.886m adverse, a favourable movement of £23k: The Strategic Investment Property Portfolio is expected to deliver a net benefit to the revenue budget in 2022/23 of £5.345m. This is £1.886m lower than budgeted due to economic factors affecting some of the income particularly from the town centre investments (£23k favourable movement).
Strategy & Resources	(580)	**Projected outturn variance £580k favourable, a favourable movement of £184k.** • Staff costs are estimated to be £395k less than budget across the Directorate based on actual and forecast vacancies across the whole year, which is 4.2% of the total staffing budget and £38k higher than last reported; • Running costs are forecast to be £116k underspent. This has increased by £59k including £40k relating to Human Resources, £20k in Communications, £22k in Modernisation, offset by an increase of £15k in libraries, and £8k Waterside Arts Centre; • Other Income is projected to be £300k above budget. This includes £178k from the traded Music Service (increased by £55k), £87k from Catering and Cleaning (increased by £2k), £51k Bereavement Services (increased by £2k) and £22k from staff parking (increased by £11k). This is offset by a £32k shortfall in income from libraries (increased by £2k) and other income £6k (reduced by £17k). Overall projected income is £85k higher than last reported. These are offset by the budgeted Directorate-wide efficiency saving target of £231k, which is expected to be achieved in full.

Finance & Systems	36	**Projected outturn variance £36k adverse, a favourable movement of £43k.** • Staff costs are estimated to be £244k less than budget across the Directorate based on actual and forecast vacancies for the whole year, which is 2.8% of the total staffing budget and £39k higher than last reported; • Running costs are forecast to be overspent by £31k (increase of £4k); • Income is projected to be £58k below budget (reduced by £8k), which relates to reduced ICT trading income from schools. These are offset by the budgeted Directorate-wide efficiency saving target of £191k.
Legal and Governance	374	**Projected outturn variance £374k adverse, a favourable movement of £33k.** • Staff costs are estimated to be £85k above budget and includes for agency costs covering vacancies and service demand. This has reduced by £93k since last reported due to ongoing difficulties in filling vacancies; • Running costs are projected to be overspent by £140k (increased by £39k) and mainly relates to legal fees associated with workload demand; • There is a projected shortfall in income of £59k compared to budget (increased by £21k). This overall shortfall includes £25k in capital fee income which is related to staff vacancies, £33k shortfall in traded services, £13k shortfall in land charges and £43k reduced grant income in electoral registration service. Registrars income is forecast to be £55k above budget. The above is offset by the budgeted Directorate-wide efficiency saving target of £90k.

Council-wide	(3,850)	**Projected Outturn variance, £3.850m favourable, a favourable movement of £127k since Period 6** **Treasury Management** The average interest rate at the time of setting the budget was expected to generate income of £433k. Successive increases in the Bank of England base rate has seen a subsequent increase in the average investment rate (Bank of England currently 3.50%), which is expected to generate additional investment interest of £2.409m, an increase of £432k since period 6. Other net adverse variances against budget of £179k, an increase of £114k since period 6. **Housing Benefit** The Housing Benefit budget is notoriously difficult to predict. At period 8 a saving on the net Housing Benefit budget (payments made, less subsidy and overpayment recovery) of £2k is estimated, an adverse movement of £255k since period 6, although there is a wide margin for error given the unknowns and this figure could change throughout the year. A reserve of £500k is set aside should this budget enter an overspend position. **COVID-19 Contingency** The central COVID contingency of £1.50m has been released in full, as previously reported. **GMCA Transport Levy** The final GMCA Transport levy set is lower than the budget agreed in February by £154k. **Greater Manchester Advance Pension Payment** A projected saving of £80k above budget from the three yearly advance pension payment. **Savings Proposals** The Digital Strategy saving of £100k will not be achieved in 2022/23 and has been delayed until 2023/24 in the Medium Term Financial Plan. No change since period 6. **South Manchester Coroners Service** Trafford's projected share of the costs of the South Manchester Coroners' service is currently £16k above budget.
Dedicated Schools Budget	1.653	The DSG is overspending by £1.653m, this is an adverse movement of £918k from P6. Schools Block - £453k underspend relates to the Growth Fund but will be required in future years. This is a favourable movement of £91k.

		Central Schools Block - £22k underspend is in Primary Targeted, Funding Forum £2k and Admissions £35k. This is a favourable movement of £35k. High Needs Block - £2.165m overspend is due to a £1.267m overspend on the budget set and that the budget set is £898k more than the latest grant allocation received. This is an adverse movement of £1.045m. The £1.267m over spend is : • £376k Education Health Care Plans – increase in demand and complexity of need. This is an adverse movement of £291k from P6 due to the autumn term delegation being (£93k) more than expected, outstanding panel decisions being backdated (£198k) and a reduction in budget due to the import/export adjustment (£42k); • £376k special schools - additional places have been funded at The Orchards, Brentwood and Delamere, this is an adverse movement of £35k; • £144k further education placements - funding an additional 24 placements at £6k each with no additional grant. Additional funding in the current formula is not provided by central government for any increases in 19-25 year olds; • £489k out of borough placements – adverse movement of £777k from P6 due to 92 new placements; • This is offset by £109k of underspends in sensory impairment and behaviour and attendance, a favourable variance of £58k. There is a negative high needs block reserve of £1.992m, leaving an overall deficit of £4.157m. Work continues to take place on this with a HNB sub-group of the funding forum which is working on a report to summarise options for longer term savings. In addition to this a further meeting has been held with the Education and Skills Funding Agency (ESFA) to progress work on a DSG Deficit Recovery Plan which will also assist in future planning. Early Years Block - £2k minor underspend

Prudential Indicators – 2022/23 **Appendix 4**

The Prudential Code for Capital Finance in Local Authority was reviewed and updated following a consultation with Local Authorities in November 2021. The Code requires that the Council report and monitor Prudential Indicators on at least a quarterly basis during the financial year. These indicators are designed to support and record local decision making in a manner that is publicly accountable.

These indicators are approved and set by the Council in February each year as part of the wider budget setting process.

The prudential indicators cover the three areas in which the Council is required to report and monitor:

<u>Capital expenditure indicators:</u>

- **Estimates of capital expenditure**; Actual total capital expenditure for previous financial year and estimates of spend for the following three years. Variances found here from the approved indicator level to the current forecast level are due to revisions to the programme, reported through the regular Capital Budget Monitoring and approved by the Executive.
- **Estimates of capital financing requirement;** this reflects the estimated need to borrow for capital investment (i.e. the anticipated level of capital expenditure not financed from capital grants and contributions, revenue or capital receipts).

Prudential Indicators - Period 8 2022/23	2021/22	2022/23			2023/24			2024/25

External debt indicators

- **Authorised limit for external debt;** This is a key prudential indicator and represents a control on the maximum level of external debt that the Council will require for all known potential requirements. It includes headroom to cover the risk of short-term cash flow variations that could lead to temporary borrowing and any potential effects arising from bringing "off balance sheet" leased assets onto the balance sheet in compliance with IFRS 16.
- **Operational boundary for external debt;** calculated on a similar basis as the authorised limit but represents the likely level of external debt that may be reached during the course of the year and is not a limit
- **Gross debt and the capital financing requirement;** The Council needs to ensure that its gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2022/23 and the following two financial years. This allows some flexibility for limited early borrowing for future years but ensures that borrowing is not undertaken for revenue or speculative purposes.

Affordability indicators

- **Estimates of financing costs to net revenue stream;** this indicator shows the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the Council's net revenue stream. This demonstrates the affordability and proportionality of that borrowing by comparing it to the Council's net revenue stream as a whole.
- **Estimates of net income from commercial and service investments to net revenue stream;** This indicator compares income from commercial investments to the Council's net revenue stream. As before, this comparison allows for consideration for the Council's reliance on that income and its proportionality.

Appendix Corporate Plan Performance - Quarterly Key Performance Indicators **Appendix 5**

A red-amber-green (RAG) direction of travel rating is provided to give an indication of whether performance is improving or declining based on the target. Indicators with arrows highlighted green: improved on the previous value or on an expected target. Indicators with arrows highlighted amber: within 5% of the target (slight decline). Indicators with arrows highlighted red: declined by more than 5% on the target. Some indicators do not have a target (for example, due to being a new indicator) and will therefore have no target RAG rating. Similarly, some of our indicators are new and we do not have any previous data to compare our performance to or it is not appropriate to compare to previous data; these will have no direction of travel RAG rating in the summary pages.

Some Council Service metrics are also included in the report as although they are not included in the priorities, they provide a performance update for a range of services the Council provides.

Supporting people out of poverty	Definition	18/19	19/20	20/21	21/22	Target for 22/23	Q1 22/23	Q2 22/23	Direction of travel	Comments
	Percentage receiving Universal Credit (UC) and the Claimant Count (CC)	2.3% (CC) 5.1% (UC)	2.5% (CC) 6.4% (UC)	5.3% (CC) 11.8% (UC)	3.4% (CC) 10.3% (UC)	TBD	3.1% (CC) 10.6% (UC)	3.1% (CC) 11% (UC)	NA	It should be noted that a target cannot be set easily for this indicator as in some instances an increase could represent less people experiencing poverty as they are being supported to access the right benefits.
	Number of people prevented from becoming homeless	416	444	303	310	344 (based on last year +10%)	90	69	NA	The number of people prevented from becoming homeless this quarter is below target as most people who approached HOST for assistance had already left their property and as such HOST were unable to prevent and the applicant was placed straight into Relief Duty.

	Improve the number of affordable housing completions	82	69	79	100	300 (based on forecast units in 22/23)	14	149		A successful quarter of affordable housing completions which has excepted the target. Affordable completions this quarter include: • 75 units as part of the Sale West • 31 apts at 50-78 Higher Road, Urmston • 15 apts at Chapel House, 14 New Street, Altrincham • 16 houses Oak Road, Partington development • 6 affordable units at Heath Farm development 6 affordable units at Lock Lane development
	Improve overall employment rate (aged 16-64) (%)	77%	79.8%	76.5%	76%	76.2%	73.5%	Not yet published		Trafford fell 2.2% below England rate and 4.8% below the average of similar local authorities at 73.5%.
	Improve number of housing completions	953	788	1301	546	1,300 (based on forecast units in 22/23)	146	528		A successful quarter of housing completions which has excepted the target. Large completions this quarter include: -246 flat and 28 houses at the Land bound by Bridgewater way, Chester Road, Virgil Street and Princess Way, Old Trafford site. -70 units for Regents Road Car Park – Altrincham

Supporting people out of poverty

Definition	18/19	19/20	20/21	21/22	Target for 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
Improve the number of people being re-housed (from Trafford's housing waiting list)	229	301	119	446	360 (based on last year +10%)	95	69	↓	The number of people re-housed is reliant on the number of available properties the Housing Associations have available to advertise. This quarter has seen a reduction in the available properties which has reduced the number of people able to be re-housed. As Trafford is a non-stock holding authority, we reliable solely on the Housing Associations to enable people to be re-housed from our Register.
Maintain the low level of 16–17-year-olds who are not in education training or employment (NEET)	2.3% (Dec-Feb average)	1.8% (Dec-Feb average	2.3% (Dec-Feb average)	1.78%	1.96%	1.88%	1.89% (last reported figure from Aug)	↑	The very positive figures are the result of improved tracking of this cohort of young people by using the Youth Engagement Service. We have gained funding via the latest Education and Skills Fund for NEET contracts which will help continue to offer an enhanced level of support to NEET and 'at risk of' NEET young people in Trafford.

	Improve the percentage of primary school children achieving the expected standard in reading, writing and maths. (KS2)	77%	Not available- no testing due to Covid	Not available – no testing due to Covid		77%	Not available	66.9%	↓	This figure comes from DfE following the second data checking exercise. It was expected that attainment levels would drop this year due to restricted attendance at schools during the pandemic, but a 10 point reduction is probably more than expected. At this point, DfE have not published any data, but data that we have access to (from 101 LAs) shows a 6.5 point drop nationally, to 58.6%. This being the case, Trafford will remain amongst the higher levels of attainment in the country. The current level is above that achieved nationally pre-pandemic.
	Percentage take-up of funded childcare and early education places for two-year-olds	90%	100%	88%	106%	TBC	108% (Spring term)	108%	↑	This ranks Trafford 1st nationally and 1st in relation to statistical neighbours.

	Increase the percentage take up of funded childcare and early education places for 2-year-olds in North Trafford	NA	NA	68% (Rolling 3 term average in 2021)	69% 30 ppts gap	To reduce the gap between take up in North Trafford and the rest of the Borough by 15ppts	79% (3 term rolling average)	83.6% (3 term rolling average)		This is another significant increase improvement with an increase of over 4ppts. This decreases the % gap between take up of the 2 year offer in the North compared to the rest of Trafford to 16% where it had previously been an 18% gap for Spring and a 25% gap for Autumn. The gap continues to narrow with take up in all areas above national.
	Increase the percentage of children at or above the expected level of development at 2 - 2.5 Years	NA	NA	NA	86%	88%	86.9%	89.4%		2.5% increase in the number of children at or above expected level this quarter. Trafford remains higher than the national average (83%). Also worth noting there was an increase (+17%) in the number of children who received the developmental review in Q2 compared to Q1.

	Definition	18/19	19/20	20/21	21/22	Target for 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
Addressing our Climate Crisis	Percentage of household waste which is collected for recycling	57.3%	56.9%	53.3%	55.5%	56.8%	61.1%	60.5%	↓	Recycling rate has dropped slightly, but still well above target. It is expected that the rate will drop slightly again in Q3, as garden waste collected decreases through autumn.
	Household waste collected not sent for recycling (Tonnes)	25,525	26,399	31,109	29,523 (-5%)	27,506	7,086	14,000	↑	Residual waste collected remains outside the target set in the LAMA submission to GMCA, but performance has improved in Q2, from 2.4% above the tonnage target at the end of Q1, to 1.5% above target in Q2
	Increase number of electric charging points per 100,000 population	NA	21.6	19	24.4	48	32	Data not yet published	↑	The data reflects devices which report as operational at the end of each quarter. Between July 2021 and January 2022 Trafford's rate, although much lower, was increasing at a faster rate than its comparators. However the rate devices per 100K compared with 44.6 for the average of similar LAs and 48.8 for England

Council Service Performance Table:

	Definition	18/19	19/20	20/21	21/22	Target for 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
Council Services	Libraries loans (physical)	522,977	518,820	104,389	353,073	400,000	109,784	127,027		Loans have increased again in Q2, however still only about 80% of pre-pandemic levels
	Libraries loans (digital)	80,219	160,718	311,710	272,360	250,000	72,566	77,723		Digital loans continue to increase despite physical loans also increasing.
	Shifting enquiries to online self-service (reduce call volume)	22,686	36,406	45,922	61,199	65,000 (80%)	18,632 (78%)	18,814 (79%)		Increase from Q1(78%)
	Timeliness of FOI requests	84%	83.40%	67.10%	63%	95% (as set by the ICO)	78%	67%		The performance over the last quarter is not an accurate snapshot as for many FOIs received in September, especially late September, the 20 day deadline has not been reached. A more realistic figure of the previous quarter (July, Aug, Sept) will be available only end of October.

Council Services

Definition	18/19	19/20	20/21	21/22	Target 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
Percentage of council tax collected	98.10%	97.80%	97.20%	97.5	97.2%	29.3%	57.08%	↑	We continue to recover high levels of council tax will be looking to return to pre-Covid collection rates.
Percentage of major planning applications processed within timescales	100%	100%	100%	100%	100%	100%	100%	↔	Performance continues to remain exceptional. Total number decided within the year 35 and 13 within the quarter.
More adopted streets and paths scored at grade B or higher (road cleanliness)	83.3%	88%	93.80%	96.6%	88%	92.1%	93.2%	↑	Street cleanliness continues to be well above target. The One Trafford Partnership has just taken delivery of 4 new small mechanical sweepers, which should ensure that less time is lost due to breakdowns.
Maintain Percentage of Highway defects rectified in accordance with the 'Reactive Maintenance Procedure' timescales	93.5%	92.9%	98.7%	97.9%	95%	98.1%	98%	↑	Performance is significantly above the annual target, and has remained at a similar level for each of the last three quarters.

	Improve the number of apprenticeships across the Council's directorates and to maximise the levy spend		274	71	60	36	3 starts (April to June)	13		A cohort of level 5 learners is planned for recruitment for a Jan 2023 start. The quarterly figure is the number of apprenticeship starts from the beginning of the financial year to the end of the relevant quarter. School's apprenticeships are now separated out and not included in the KPIs.

Council Services	Definition	18/19	19/20	20/21	21/22	Target for 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
	Reduce sickness absence from previous year	10.07 FTE days lost	10.05 FTE days lost	9.29 FTE days lost	12.95 FTE days lost	10 FTE days lost	10.72 FTE days lost	10.39 FTE days lost		Sickness this quarter has reduced by 0.33FTE days as compared to the Q1. However, it is higher than the target.
	Maintain rate of admissions to permanent residential nursing in over 65+	539.5	684.8	543	614.3	550	133.6	279.2		This is a similar level to this time last year which was 291.4. If we continue on this trajectory, we will be on course to achieve our year-end target. As a system we continue to work across all areas to ensure that timely assessment is undertaken either within hospital or within a Discharge to Assess (D2A) bed.

	Maintain older people still at home 91 days after discharge from hospital into reablement services	93%	91.6%	88.9%	93.3%	91%	89.1%	88.7%		We are reporting a steady position at the end of Q2 22/23. We continue to be around 8% ahead of the regional and national out-turns for this indicator. Our new suite of service responses, to enable people to be discharged home with enhanced levels of support, is having an impact on this service area.
	Improve the proportion of clients receiving commun ity-based services with direct payments	26.8%	28%	24.9%	22.6%	25%	16.3%	16.7%		We still have a lower rate of Direct Payments than previous years and compared with regional comparators.
	Improve the success of short-term services in Adult Social Care (ST Max)	45.1%	44.1%	46.5%	56.6%	59%	45%	56%		We are on track to meet our year-end target for this indicator and will aim to continue our trend in improvement

Council Services	Definition	18/19	19/20	20/21	21/22	Target 22/23	Q1 22/23 Actual	Q2 22/23 Actual	Direction of travel	Comments
	Children in Need cases open over 12 months (all open referrals)	903	804	732	716	750	754	777 (52%)	↑	This data represents all children open to Childrens Social Care and includes all Child in Need, Child Protection and Cared for Children. 63% of the overall children open to a service for more than 12 months are Cared For Children or Care Experienced. Whilst demand is fluctuating detailed analysis is ongoing to understand whether this relates to changes to specific case status or is a reflection of demand reduction strategies.
	Proportion of referrals that were re-referrals to Children's Social Care Services (within last 12 months)	26.9%	31.8%	17.2%	21.4%	22%	25.7%	16.2%	↓	The figure of 16.2% for the Quarter is excellent, especially when prior to the period the measure had seen a slow, long-term upward trend with monthly figures over 25%. It is currently at 20.2% for the year, below last published comparator figures.
	Early Help Assessments completed	**NA**	**NA**	170	170	180	89	86	↓	Whilst we are on track to achieve this target, it should be noted that the target is comparatively small compared to other LA's. The majority of the EHA's should be completed

										by partner agencies not council services. Work in this regard is ongoing across the partnership
	Proportion of Care Experienced Young People in touch with a social workers or care worker within last 8 weeks (17–21-year-olds)	19%	38%	83%	83%	90%	78.4%	74.7%	↓	The national standards for keeping in touch is activity must take place within the timeframe of 3 months before and 1 month after the Care Leavers birthday (within a 4 month period around birthdays). Our local indicator is keeping in touch within an 8 week period. The target set for this measure is 90%. In the first 2 quarters of this reporting year the performance has not met the target. Whilst the performance hasn't met the target, there are improvements on previous years reporting. The aim is to consistently achieve 90%.
Council Services	**Definition**	**18/19**	**19/20**	**20/21**	**21/22**	**Target 22/23**	**Q1 22/23 Actual**	**Q2 22/23 Actual**	**Direction of travel**	**Comments**
	Improve Education Health Care Plan (EHCP) timeliness (% of EHCPs issued within 20 weeks requests agreed)	61.8%	81.8%	78.3%	56.4%	60%	31%	42.3%	↑	Figures for the last 3 Quarters have been poor, with the outturn for 21/22 of 56.4% being below the percentages recorded in previous years. Alongside this Q1 saw a very high number of both requests for and EHCPs issued. Given the high numbers of requests coming in and

										backlogs in the system, these figures are unlikely to improve in the short term. Year-to-date, 36.4% of EHCPs have been issued within 20 weeks.
	Maintain percentage of schools that provide good or outstanding levels of education		93.5%	93.5%	93.4%	93.4%	94%	93.4%		There are currently 6 schools judged to be below ‘Good’. One of these has moved from Inadequate to Requires Improvement following a recent inspection. Whilst previously ‘Good’ schools are tending to maintain their judgements following inspection under the new framework, outcomes are more mixed for those previously ‘Outstanding’.

Corporate Plan Performance - Key Performance Indicators **Annually or biennially** **Appendix 6**

	Definition	Frequency	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
Reducing Health Inequalities	Narrow the deprivation gap for adults who are classified as overweight or obese	Annual	60.0	59.3	60.7	Data not yet available	Maintain direction of travel (reduction). Percentage reduction for 21/22 to be greater than 3% (7.3% from 18/19 to 19/20)	⬆	Trafford is already lowest of its statistical neighbours. This data is not available at Ward level. Maintain lower percentage compared to England average. The percentage of adults classified as overweight or obese has increased by 1.4 percent from 19/20 to 20/21
	Increase the percentage of adults who are active	Annual	69	68.1	68.2	Data not yet available	Maintain the gap between deciles 1 and 10 by Nov 2021	⬆	New data for 20/21 now released in Q4. The percentage of adults who are active during 20/21 has being maintained from 19/20 To move into the top 2 of our statistical neighbours (we are currently 5th highest). This is deteriorating and we are waiting for the next published data to see the impact of Covid on adults who are active. This is reflected in the National picture too.

	Improve the % of children who are active	Annual	47.5	37.7	43.1	Data not yet available	To maintain our position in comparison with our statistical neighbours		To maintain our position in comparison with our statistical neighbours (we are currently 7th highest)

Reducing Health Inequalities	Definition	Frequency	18/19	19/20	20/21	2021/22	Target for 22/23	Direction of travel	Comments
	Reduce the under 75 mortality rate from causes considered preventable (per 100,000 population)	Annual	133.9 (2018)	144.2 (2019)	131.0 (2020)	Data not yet available	To maintain our position in comparison with our statistical neighbours		Target to maintain our position in comparison with our statistical neighbours is due to the ongoing impact of covid also seen at a national level.
	Improve the healthy life expectancy at birth (by deprivation and gender)	Annual	(2016 – 18) Female 66.0 Male 66.0	(2017 – 19) Female 65 Male 65.6	(2018 – 20) Female 66.9 Male 66.3	Data not yet available	To move into the top 2 of our statistical neighbours for males and top 3 for females	Female Male	New data for 2020/21 now released in Q4. The healthy life expectancy has increased by almost two years for females and 0.7 years for males from 2017 – 19 to 2018 – 2020 Target is to move into the top 2 of our statistical neighbours for males and top 3 for females.
	Improve the inequality in life expectancy at birth. (The slope index of inequality)	Annual	(2016 – 18) Female 7.4 Male 9.3	(2017 – 19) Female 7.9 Male 8.8	(2018 – 20) Female 7.4 Male 8.5	Data not yet available	To maintain our position in comparison with our statistical neighbours	Female Male	We are currently 8th highest for females and 9th highest for males

Reducing Health Inequalities	Reduce the proportion of five-year-old children with experience of visually obvious dental decay	Bi-Annual	26.0		Last updated in Nov 2020; expect 20/21 update in Winter 2022.	Data not yet available	To join the lowest three of our statistical neighbours	n/a	This data is not available at Ward level. There is clear and consistent evidence for a social gradient in the prevalence of dental decay in England. To become the lowest of our statistical neighbours (we are currently 5th lowest)

	Definition	Frequency	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
Reducing Health Inequalities	Reduce the depression (recorded prevalence age 18+)	Annual	13.9	14.8	15.4	Data not yet available	To halt the increase in depression prevalence	⬆	To move into the bottom half of our statistical neighbours (we are currently 3rd highest)
	Reduce smoking in routine/manual (R&M) workers vs general population (inequality in smoking rates)	Annual	R&M 26.4% (2018)	R&M 17.4% (2019) Gen. pop. 13.4%	R&M 20.3% (2020) Gen. pop. 12.9%	Data not yet available	5% reduction in the difference between routine/manual worker smoking rates and general population smoking rates	⬆	A change in data collection affects the data for 2020 meaning the confidence limits will be wider for the 2020 figure. Target for a 5% reduction in the difference between routine/manual worker smoking rates and general population smoking rates

Reducing Health Inequalities	Definition	Frequency	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
	Narrow the gap in the % of children who are classified as obese (including severely obese) in Reception and Year 6 between the most and least deprived quintiles.	Annual	(2014/15 - 2018/19) Reception Most deprived quintile 12.0 Second most deprived quintile 9.6 Year 6 Most deprived quintile 23.8 Second most deprived quintile 21.5	(2015/16 2019/20) Reception Most deprived quintile 11.6 Second most deprived quintile 8.8 Year 6 Most deprived quintile 24.6 Second most deprived quintile 21.9	Data not yet available. Last updated in June 2021; expect 20/21 update in summer 2022.	Data not yet available	Maintain lower percentage compared to England average. Maintain our position in comparison with statistical neighbours	Reception Most deprived quintile ↓ Second most deprived quintile ↓ Year 6 Most deprived quintile ↑ Second most deprived quintile ↑	Data is available by quintiles – target to reduce the gap between the most deprived quintile and least deprived quintile by 20% per year (whilst ensuring there is not an overall increase). Target to apply to both Reception and Year 6. Given the impact of the pandemic, we hope to have maintained our position compared to our statistical neighbours, though we are in the top 20 highest cumulative Covid areas.

Addressing our climate crisis

Definition	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
Reduce borough wide CO_2 emissions (Kilo tonnes)	1,507.0 (2018)	1,467.6 (2019)	Not yet published	Not yet published	1,271.0	TBC	No data has been published since 2019. Awaiting next publication of data.
Corporate CO2 emissions (tonnes)	17,433	17,134	15,205	Not yet published	11,087	TBC	New data for 20/21. This figure includes emissions reported under scope 1 (direct emissions- fossil fuels burned directly by the Council), scope 2 (indirect emissions- imported electricity), and scope 3 (other indirect emissions from products and services).

Addressing our climate crisis

Definition	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
Reduction in annual mean concentration of particulate matter (PM_{10}) µg/m^3 (MP = Moss Park, A56 = A56 Chester Road)	MP:14.5 A56:16.8 (2019)	MP:13.1 A56:14.1 (2020)	MP:13.2 A56:14.4 (2021)	MP: 21.5 A56: 20.1	MP: 13.1 A56:14.1		The annual mean is reported from 01 January to 31 December. The Q4 figure is the quarterly mean from 01 January to 31 March. After a reduction in 2020 there has been a slight increase in 2021. The Q4 figures indicate a further sizable increase for 2022.
Reduction in annual mean concentration of nitrogen dioxide (NO_2) µg/m^3 (MP = Moss Park, A56 = A56 Chester Road, WA = Wellacre)	MP:19 A56:30 WA:15.5 (2019)	MP:14 A56:21 WA:11.4 (2020)	MP:15 A56:23.1 WA:13.3 (2021)	MP: 18.5 A56: 22.5 WA: 14.7	MP: 14 A56: 21 WA: 11.4		The annual mean is reported from 01 January to 31 December. The Q4 figure is the quarterly mean from 01 January to 31 March. After a reduction in 2020 there has been an increase in 2021 but still below pre-Covid levels. However, the Q4 data is indicating a return to 2019 levels with the exception of the A56 readings.

	Increase proportion of adults who do any walking or cycling, for any purpose, five times per week	33.5	34.5	30	Not yet published	36.1		Trafford has seen a decrese in the rate from 34.5 to 30. Perforamnce has dropped below similar to statistical neighbour's average of 32.5%.
	Increase of the number of school streets in the borough	0	0	0	0	5	NA	5 school streets have agreed funding from TfGM and 3 are in process of being established using local resources.
	Improve number of staff trained in carbon literacy	NA	NA	20	86	TBC		For generic staff training, a focus will continue to on rolling out training across the organisation in 2022-23

	Definition	18/19	19/20	20/21	21/22	Target for 22/23	Direction of travel	Comments
Addressing our climate crisis	Improve proportion of Energy Performance Certificates (EPC) registered to Trafford addresses that are A, B or C	31.2% (2010-2019)	32.0% (2011-2020)	33.4% (2012-2021)	36.2%	TBC		The Committee on Climate Crisis states that all homes will need to be EPC C or above to reach Net Zero.
	Reduce vehicle miles travelled on roads in Trafford (millions)	1,034.4 (2018)	1,084.7 (2019)	886.6 (2020)	846 (2021)	939		Decrease largely due to the impact of covid, lockdowns and remote working.
	Reduce number of licenced vehicles with Trafford addresses	130,076 (2018)	131,133 (2019)	129,116 (2020)	130,387 (June 2022)	130,212		This is less compared to similar statistical neighbours (202,502)
	Increase percentage of licenced Ultra Low Emission Vehicles with Trafford addresses [Number registered at year end]	0.37% [476] (2018)	0.52% [684] (2019)	0.81% [1,042] (2020)	1.76% (June 22)	3.73%		Targets for *Proportion of licenced Ultra Low Emission Vehicles* and *Proportion of Energy Performance Certificates* are based on a linear reduction rate from current levels to 100% by 2038. To reach Net Zero, all vehicles – including

								heavy-goods vehicles (HGVs) – must be fossil fuel free.

Supporting people out of poverty	Reduce % of households fuel poverty levels	10.4% (2018)	12.8% (2019)	12.3% (2020)	Data not available	12.1%		***New data for 2020 just released in Q4-** In 2020, 12.3% of households in Trafford were fuel poor. This masks considerable variation between small areas within Trafford. In Clifford ward, some 19.2% of households were living in fuel poverty. 2019 and 2020 fuel poverty statistics are based on the new Low Income Low Energy Efficiency (LILEE) metric as opposed to the Low Income High Costs (LIHC) metric. Additional fuel poor households were identified by the LILEE metric.
	Improve employees paid at/above the real living wage	77.4%	77.1%	80.7%	No quarterly data	83%	NA	We are progressing towards RLW Accreditation as a Council and engaging with our suppliers alongside considering the financial impact of this ambition. Though the increase is positive, Trafford is still 3.2% below the mean of statistical neighbours.
