83. LEISURE STRATEGY REVIEW

The Executive Member for Culture, Leisure, and Strategic Partnerships introduced the report on the leisure strategy review. The report detailed that the renovations of Stretford Leisure Centre would follow the completion of Altrincham Leisure Centre. The Executive Member informed the Committee of the condition of Stretford Leisure Centre and how delighted she was to present the paper and especially the development of the active cricket centre. The strategy was focused upon making people healthier by having a more active lifestyle and providing adequate facilities for the community was an important element in achieving that goal. It was noted that the report contained a typo as the swimming pool in Stretford Leisure Centre had six lanes rather than five.

The Leader welcomed the report and the investment in Stretford Leisure centre. The Executive Member for Environmental Services added his support of the investment and the aims of the strategy to encourage people to live a healthy lifestyle.

The Executive Member for Economy and Regeneration noted the large amount of community interest in this work and welcomed the involvement of UA 92 and other local partners.

The Executive Member for Health, Wellbeing, and Equalities welcomed the investment and noted that the facilities had deteriorated over the last few years and needed renovation.

Councillor Newgrosh noted the green energy generation mentioned within the report and asked whether Altrincham would have the same system fitted. The Corporate Director of Place informed Members that Altrincham Leisure Centre was currently undergoing the upgrade which was why it was closed.

Councillor Blackburn enquired about North Trafford General Practice and how long the NHS freeze on estates decisions would last. The Executive Member for Culture, Leisure, and Strategic Partnerships noted the question and responded that she would have to raise it with NHS colleagues.

Councillor Jerome welcomed the report, in particular the environmental aspects, and asked about the quality of cycling access for the leisure centre. In response to Councillor Jerrome the Corporate Director of Place stated that the site had a good

Executive (20.2.23)

level of accessibility for both public transport and active transport, including cycling. The Executive Member for Culture, Leisure, and Strategic Partnerships added that the strategy and update of the facilities would allow the Council to review how people accessed leisure facilities across the borough.

Councillor Butt welcomed the report and the modernisation schemes and enquired whether cricket academy would be usable by residents from all areas of the borough. The Executive Member for Culture, Leisure, and Strategic Partnerships responded to Councillor Butt by confirming that the strategy would support the whole borough to be active and informing the Committee that conversations were ongoing to have cricket facilities or activities in parks across Trafford.

Following the discussions the Leader moved the recommendations, which were approved.

The Executive gave a brief overview of the six objectives listed.

Councillor Jerome noted the section on carbon reduction within the report and asked how the report could also support the development of the Carrington relief road. The Executive Member for Economy and Regeneration informed Members that the report was not focused upon the Council's carbon neutral plans but was focused upon economic recovery, which included the economic benefits the Carrington relief road would bring to the local community.

Executive (20.2.23)

Councillor Blackburn asked when feedback could be expected from the green studies mentioned within the report. In response to Councillor Blackburn the Corporate Director of Place stated that there would be an item covering the studies on the Executive agenda in March.

Councillor Welton welcomed the report and note the levelling up fund bid disappointment and asked whether the mayors challenge fund funding would still come through. The Corporate Director of Place said that he would contact Councillor Welton after the meeting as it was a very complex picture of funding.

Councillor Butt commented that an economic plan was required to support existing business while generating new business and asked whether the digital solution put forward within the report would be adequate to achieve this. The Executive Member for Economy and Regeneration responded that the digital solution referred to by Councillor Butt was only one element of a wide range of measures the Council were utilising to support the local economy.
