## 1. Capital Investment Programme Update

1.1 This report summarises the current position and progress of the 2015/16 Capital Investment Programme and its' financing as at 30 September 2015. It takes into account both financial and scheme progress monitoring undertaken with service area project officers.
1.2 Capital expenditure in $2015 / 16$ is currently estimated at $£ 44.3 \mathrm{~m}$ which is the same as the budget estimate agreed in the Q1 Monitor Report in July 2015.
1.3 The TfGM funded City Cycle Ambition initiative is now close to completion and the final costs are lower than originally budgeted. As a result of this reduced requirement the level grant support has been reduced by $£ 149 \mathrm{k}$.
1.4 In partnership with the Trafford Clinical Commissioning Group (CCG) the Council has agreed to develop Davyhulme Library into a Doctor's Surgery, which the CCG will then lease. The CCG has agreed to fund the refurbishment, which is estimated to cost $£ 300 \mathrm{k}$. To date $£ 70 \mathrm{k}$ of this funding has been confirmed. A budget to this value has been added to the Capital Programme and will be increased, up to $£ 300 \mathrm{k}$, as the CCG confirms the funding.
1.5 Two grant awards have been received to support additional investment in Sustainability and Greenspace projects:

- Longford Park, Stretford - £10k: A grant from Trafford Housing Trust to support the continued development of the park.
- Countryside Infrastructure - £20k: A Land Fill Tax grant has been awarded to support improvements to the Trans Pennine Trail at the Lesley Road area of Stretford.

## 2 Resourcing

2.1 The chart below shows the types and levels of resource available to finance the Capital Investment Programme. Internal funding of $£ 11.2 \mathrm{~m}$ equates to $25 \%$ of the total funding requirement, whilst external funding makes up the balance of $£ 33.1 \mathrm{~m}$ with $80 \%$ of this being government grants ( $£ 26.6 \mathrm{~m}$ ).

## Capital Programme 2015-16 (£44.3m) Financing by Resource Type

2.2 The current estimate of capital receipts has been updated to reflect the latest information from the Land Sales Programme (LSP). The table below shows the current value of estimated capital receipts available to support the capital budget has increased by $£ 0.2 \mathrm{~m}$ compared to the position reported in the Q1 Monitor Report as a result of a new site being added to the programme. Therefore the overall position remains the same as a surplus of $£ 2.8 \mathrm{~m}$.

2.3 It is not intended to commit these available capital receipts to further capital investment at this stage. The Council is awaiting the outcome of the Comprehensive Spending Review as the capital receipts may be required to help support the revenue budget indirectly, such as repaying debt or meeting staff severance costs which would otherwise fall on constrained revenue resources.

## 3. Actual Expenditure - $\mathbf{2}^{\text {nd }}$ Quarter (April - September)

3.1 There are 259 schemes currently allocated in the capital investment programme. All schemes have been reviewed with project officers for both physical and financial progress. The review provides a robust plan for schemes and projections of expenditure in the year.
